# AMONGST THE ROSES BURIAL ESTATES

For many families whose personal preference is traditional burial, the historical range of options has been limiting. Private burial estates are a unique burial option; a fitting and sophisticated tribute to a loved one.

Overlooking the glorious established plantings of both Jamieson and Sainsbury Rose Gardens, burial estates are planted with standard and shrub roses between burial locations. These roses will, in time, form a seamless transition between the burial area and the adjacent gardens. The intent has been to establish a burial area with a traditional rose garden aesthetic.

An opportunity to establish a site of family import, each plot can accommodate up to two traditional burials.

The adjacent memorial gardens offer a range of cremation memorial options.

## A SIMPLE ALL-INCLUSIVE OPTION

Amongst the Roses Burial Estates are offered as an all-inclusive package including the first granite base and a traditional brown bronze plaque (single or double plaque option<sup>+</sup>) upon which the first commemoration is inscribed.

Following the second burial an additional granite base and plaque can be purchased\*.
